BLOOD DONATION APP

1. Introduction

This project involves the development of a Blood Donation App using Flutter. The app allows users to register, store, and view student details.

2. Tools Used

Flutter & Dart – App development

Android Studio – SDK & Emulator

Visual Studio Code – Code editor

3. Installation & Setup

3.1 Flutter

Download Flutter SDK

Extract files

Add to system PATH

Run flutter doctor

Flutter installation / flutter doctor output

```
Problems (Ctrl+Shift+M)
PROBLEMS OUTPUT DEBUG CONSOLE TERMINAL PORTS
PS C:\Users\HP> flutter doctor
Doctor summary (to see all details, run flutter doctor -v):
[✓] Flutter (Channel stable, 3.44.0, on Microsoft Windows [Version 10.0.19045.6456], locale en-US)
[✓] Windows Version (10 Pro 64-bit, 22H2, 2009)
[!] Android toolchain - develop for Android devices (Android SDK version 36.1.0)
    X cmdline-tools component is missing.
      Try installing or updating Android Studio.
      Alternatively, download the tools from https://developer.android.com/studio#command-line-tools-only and make sure to set the ANDROID_HOME
      environment variable.
      See https://developer.android.com/studio/command-line for more details.
    X Android license status unknown.
```

3.2 Android Studio

Install Android Studio

Install SDK tools

Create emulator

Android Studio installation / setup wizard

3.3 Visual Studio Code

Install VS Code

Install Flutter & Dart
extensions

VS Code with Flutter extension

4. Project Creation

Open VS Code

Create Flutter project

Creating Flutter project

5. Features

Login page

dashboard

Bloodbank

Finddonor

Emergency

profile

Navigation between screens

6. Development

Used Flutter widgets for UI

Forms for data input

Stored data locally

Used Navigator for navigation

7. Running the App

Running app on emulator/phone

8. Challenges

Installation errors

Emulator issues

Slow build process

Solution: Used flutter doctor and installed missing components

9. Conclusion

The app was successfully developed and demonstrates basic mobile app development skills using Flutter.
